

**Redbourn Primary School**  
**Online Safety Acceptable Use Agreement**  
**for Parents and Carers**

Dear Parent/Carer,

The internet, email, mobile technologies and online resources have become an important part of learning and life. We want all children to be safe and responsible when using any IT. It is essential that children are aware of online risk, know how to stay safe and know where to go to report problems or to get help.

Please read through these online safety rules. **By your child attending Redbourn Primary School, parents/carers agree to all of the expectations.**

Please see the full online safety policy in the policies section on the school website. Any concerns or explanation can be discussed with the Headteacher,

**Summary of key parent/carer responsibilities**

The school provides online safety information for parents/carers, through the website, Meet the Teacher annual events, in newsletters and at events. It is important that parents/carers understand their key role in supporting children to behave appropriately and keep themselves safe online.

The online safety policy, supported by its acceptable use agreements, is intended to protect the interests and safety of the whole school community.

- Parents/carers are required to support their child in understanding and following the Online Safety Acceptable Use Agreement for pupils.
- Parents/carers cannot use mobile phones on the school site and may only use personal mobile phones and devices in designated areas of the school unless otherwise informed, e.g. for specific events and activities. Under no circumstance should images be taken at any time on school premises that include anyone other than their own child, unless there is a pre-specified agreement with individuals and parents/carers. When a parent/carer is on school premises but not in a designated area, their phone/s must be switched off and out of sight.
- Parents/carers should not assume that pupils can bring technological devices to school and should always check the school policy.

- All cyberbullying incidents affecting children in the school should be reported immediately. (If the incident involves an indecent image of a child the report must also be made immediately to the police for your own protection.) The school will investigate and respond to all reported cyberbullying incidents, liaising with others where appropriate. No reply should ever be sent to the sender/poster of cyberbullying content. If applicable block the sender and report abuse to the site. Evidence should be retained and shown in school and/or to the police. Evidence should not be forwarded.
- The school may choose to set up social media sites, blogs or have some other online presence in its own name. Parents/carers, however, do not have the right to set up any site, page, chat group or any other online presence that uses the school name or logo in any form.
- Any parent/carer, distressed or concerned about an aspect of school should make immediate contact with a member of staff rather than posting their concerns online. Parents/carers should not share school related information or images online or post material that may bring the school or any individual within it into disrepute. Negative postings about the school would impact on the reputation of the whole school community. Parents/carers are encouraged to report breaches so that we can protect the reputation of the school, staff, pupils and parents/carers.
