THRIVE VALUES	<p>Team – We understand the importance of communicating with others and having the confidence to give it a go. We practice our language skills aloud with others to benefit everyone.</p> <p>Healthy – We understand that language skills exercise a different part of our brain and that this can help us with learning in other areas too. We learn how to order food and drink in another language and talk about our hobbies. This helps us remember what we need for a balanced healthy lifestyle.</p>			<p>Responsibility – We understand that being able to communicate in another language broadens our horizons and expands our awareness of other cultures. We know we should practice and try hard to pronounce words accurately. We have a responsibility to make the right choices in lessons.</p> <p>Innovative – We use technology to help us communicate. We understand the world is a smaller place and language skills are crucial. We find new and fun ways of practising and remembering new words and phrases.</p>			<p>Valued – We understand the importance of language skills and of learning about other cultures and nations. We listen and respect others’ attempts to speak words in a new language and support them, as we are all as important as each other.</p> <p>Empathetic – We are patient, understanding and encouraging with others who feel less comfortable speaking aloud. Our support gives them the confidence to try.</p>
